Reviews of New Books

By Charles G. Dawes, brigadier general Engineers. Illustrated, Boston: Houghton Mifflin Company.

Nothe outside this is a journal of the great war, dating from the midyear of 1917 and giving in detail the activities of those who carried forward America's part in the war by way of the service of supplies. As a journal it is a vigorous and plain statement of those who carried forward America's part in the war by way of the service of supplies. As a journal it is a vigorous and plain statement THE DON QUIXOTE OF AMERICA.

By Charles Hemstreet, author of
"Nooks and Corners of Old New
York," etc. New York: Dodd, Mead
& Co. of fact, bearing upon the multitudinous phases of the supply dapartment in its lining up with the business of fighting the enemy. This

tudinous phases of the supply department in its lining up-with the business of fighting the enemy. This daily account involves hundreds of people, soldiers, about whom we are as naturally proud. These we come upon in a touch-and-go encounter, for this story is mostly go. Direct, blunt, the author moves promptly from point to point, gathering up the vast business of supplying the fighting man, striking o

place the activities of this socialist organization properly in the scheme of American politics. Every intelligent citizen should study this exhaustive and fair-dealing exposition. Its writer is a professor in the University of Minnesota. He was formerly justice of the supreme court of North Dakota and, afterward, dean of the law school of the state university. He is in a position to know the truth of this matter. The volume belongs to the citizens' library on politics and economics, edited by Richard T. Ely of the University of Wisconsin.

orphan Dinah. By Eden Phillpotts, author of "Old Delabole," etc. New York: The Macmillan Com-

is unconvincing to the majority. However, Dinah remains, to the reader, a splendid woman whose courage commands admiration, even while one knows that she has chosen the thorniest possible way toward happiness. This author has never creat-

ed a more attractive nor a stronger heroine than is this orphan Dinah.

THE UNLIGHTED HOUSE. By James Hay, jr., author of "The Winning Clue," etc. New York: Dodd, Mead & Co.

The dark house which plays so large part in Mr. Hay's mystery story is gight over in Georgetown. And we have a murder mystery of our own here

GALUSHA THE MAGNIFICENT. By

Joseph C. Lincoln, author of "Shavings," etc. New York: D. Appleton & Co.

AN ENTHUSIAST. By E. OE. Somer-ville, author of "The Real Char-lotte," etc. In collaboration with Martin Ross. New York: Long-mans, Green & Co.

One never expects to find Eden Phillpotts outside of Dartmoor. Nor does one wish to find him otherwise. For, by the way, of this writer's novels many readers are becoming happily familiar, not only with the geography of this beautiful English corner, but with the kind of folks that it has bred. These are all plain people—slow thinking, steady going. Yet the problems that assail them are exactly those with which the rest of the world has to deal. This fact sources their general appeal. The story here is that of a young and high-spirited woman, of independent and modern outlook. The question of love involves, in her case, the rejection of a suitor wholly pleasing to her right-thinking family, and the acceptance of a man who is already married. This throws the fact of bigamy into the excited community. What the Dartmoor folks think of this is brought out over and over again in their slow and persistent turning of the matter inside out. PLEA FOR OLD CAP COLLIER. By Irvin S. Cobb, author of "Back Home," etc. Frontispiece by Tony Sarg. New York: George H. Doran Company. ROSALEEN AMONG THE ARTISTS.

By Elizabeth Sanxay Holding, author of "Invincible Minnie," etc.

New York: George H. Doran Com-

again in their slow and persistent turning of the matter inside out, morning, noon and night. What Dinah herself does is the height of independent action, based upon think-ing that is as unconventional as it

SONG OF FAITH. By Katherine

right over in Georgetown. And we have a murder mystery of our own here in Washington. Moreover, it involves a senator of the United States, and government clerks, and a diplomat or so-really quite a home affair. The regular formula is put into use here—that of the discovered dead man and, subsequent thereto, a goodly number of possible criminals all bent to the destruction of the one person. |That which, however, gives a fresh turn to this particular mystery tale is the character and personality of the great detective, an essential in every modern story of this sort. This great man turns out to be, in contrast to the majority of his class, a really absorbing character of genuinely human qualities that have been trained to no more than a believeable degree of efficiency. He is, besides, a charming man—human, devoted to his craft in a sincerity that is most convincing. He is the high point of this mystery tale. A love story in which the senator cuts no very great figure forms an accompaniment to the main action and serves, as well, to put the readers in touch with a lovable and loyal fellow who quite puts it over the statesman in the matter of plain manhood.

Camp Meade.

Maj. John W. Oehmann, Capt. George L. Lewis and First Lleut. Sidney Morgan composed an examining board which met at the armory on Tuesday evening last for the examination of enlisted members of the District National Guard who are applicants for commission in the local organization. No announcement has as yet been made by the board as to the soldiers found qualified. Members of the guard are anxiously awaiting this announcement, as there are five vacancies in the commissioned personnel of the engineer regiment which are to be filled. As the National Guard expands, officers are to be selected from among the enlisted personnel of the organization, and all those interested in the military, and especially former service men, should enter the National Guard at this time in order that they may be available as candidates for commissions when additional vacancies exist. The engineer regiment holds its weekly drill on Tuesday evening each week.

ng the District of Columbia National Guard, is attending the reserve offi-

The adjutant general of the Army has informed the local National Guard that one enlisted man of the organization may be nominated for admission to the United States Military Academy at West Point. Preliminary examination for the selection of the soldier who is to represent the District guard will be held between November 1 and 15 this year. Successful candidates will be admitted to the United States Military Academy on July 1, 1922. During the past year three members of the District of Columbia National Guard—Sergt. Alvin T. Bowers, Private John

Guard, is attending the reserve officers' camp being held at Camp Simms, Md., until August 24. Those in attendance at the camp are all officers of the National Guard or the Reserve Corps, or both, and the camp is being conducted for the training of officers. It is not connected with the citizens' military training camp at Camp Meade.

During the past week Lieter H. Albaugh, former cook, Company C, Engineer Regiment, re-enlisted. The re-enlistement of Cook Albaugh should make all members of Company C joy-ful over prospects of mess arrangements at camps, etc., which may be held in the future. Frank Tolson Fred C. Farrell and Elisworth Holland were enlisted in the local National Guard during the past week.

Controller

SET-BACK FOR INDIA PLAN

Against Expansive Move. Plans of the bureau of foreign an

domestic commerce for the expansion

domestic commerce for the expansion of its overseas' trade representation to India have met a temporary setbach through a ruling of Controller General McCarl.

Establishment of a field office at Deihi, India, was planned out of the \$150,000 made available by the appropriation act for 1922 for development of far eastern trade. In an opin ion to Secretary Hoover, however Mr. McCarl held that there was nexpress authority in the act for the establishment of the office and that proper authority should be obtained from Congress.

Frank R. Eldridge, jr., chief of the far eastern division of the bureau who is to make a survey of eastern markets for American goods this fall was to proceed to Deihi to establish the office, which was to be only temporary, pending determination upor Bombay or Calcutta for the bureau's office in India, which, it is estimated would cost between \$12,000 and \$20,001

If ever the time was propitious for fur buying—it is right now. If ever there was an establishment that merited your patronage—that establishment is Wm. Rosendorf's. For we have assembled a collection of furs of the most dependable quality and of beauty un-excelled. SEX FOR PARENTS AND TEACHERS. By William Leland Stowell,
D., fellow of the New York
M. commissions until the expiration of their present enrollements, but will not be re-enrolled.

Just how the selection of officers for discharge from the service will be made has not yet been determined. A copy of the order directing the reduction of the naval reserve force here has been forwarded to Commander A. B. Clements, commanding the local reserves.

Lieut. Commander William R. Hoefer, executive officer of the reserves, now is at sea taking his annual training cruise aboard a destroyer, and it is probable that the matter of cutting the force will be discussed upon his return to the city.

Selection of a crew for the purpose of bringing to Washington the U. S. S. Eagle 59, now at Portsmouth, N. H., but assigned to this district as reserve training ship, is to be made upon the return to the city of Commander Hoefer. The commandant at Portsmouth said that the vessel would be ready to proceed to sea about August 31, but as yet he has not named the exact date when it will be ready. However, Commander Hoefer is expected to have his selection of a crew perfected before that time, in order that there will be a minimum delay when instructions are received to go after the ship.

Attendance of drills of officers and men will form the principal basis of selection of the crew, but, of course, qualifications to fill the particular
